

Bufo → Unbreakable

The Bufo Unbreakable offers gym owners and climbing schools relief from having to frequently resole and replace rental shoes. Intended primarily as a rental shoe, the Unbreakable appears to be aptly named. In fact they do not seem merely unbreakable, but utterly indestructible. The Unbreakable offers a hearty suede leather upper sewn with legendary Czech diligence and craftsmanship. The thick soles are reinforced with an extra toe-cap with the anticipation of much novice foot hanging and toe dragging. And with the size of the shoe sewn into the tongue, there will be no more mistakes in sizing.
